Company Values

Dr. Gentle's ability to deliver value-added products of international calibre at affordable prices, is primarily due to our sourcing strengths and our proprietary chemistries. We have prized relations with industry leading specialty chemical suppliers, whose ingredients are high performers and unique to the top brands in the Indian Market. Our goal is to use our strengths, to deliver top of the line home care products that are affordable. This would give our customers a competitive edge, while the end users would also greatly benefit from lower costing and high performance.

Vision

We are a customer-focussed company, striving to perform innovative research to create a complete home care solution to one's daily needs.

Mission

Dr. Gentle's mission is to create great value-added products, that perform at global standards and are affordable for daily use.
